

# Spectra Student Chapter Application Form

---

## Instructions and Benefits

This form is to be submitted by student organizations applying for recognition as a Spectra student chapter. **Please complete this form and email it, along with your proposed bylaws, to the Spectra Membership Committee Chair at [membership@lgbtmath.org](mailto:membership@lgbtmath.org). By submitting this form, your student chapter, should it be approved, acknowledges that it will adhere to the conditions and requirements outlined in all Spectra student chapter forms (application form, welcome document, update form, end-of-year report). Failure to do so may result in immediate dissolution of the Spectra student chapter.**

Applications are accepted on a rolling basis and are reviewed at Spectra board meetings, typically at the end of each month. After which, an email will be sent notifying you of your application's acceptance or rejection. Should your application be rejected, comments will be included. You will be allowed to resubmit your application after said comments are addressed. If you have any questions or concerns, please email the Spectra Membership Committee Chair.

Student chapters are entitled to use the Spectra name and brand in connection with its activities, request promotion and advertising of its events and activities within Spectra's channels of distribution, and submit requests to the Spectra Board of Directors for funding (subject to availability). Any such requests must go through the Spectra Membership Committee Chair.

The student members and faculty/staff advisors of all Spectra student chapters are entitled to Individual Memberships with Spectra, allowing you to vote in our annual election determining the Spectra Board of Directors. We also encourage your department to become an [Academic Institution Member](#) for \$100 per year.

**IMPORTANT NOTE:** If your application is accepted, then your student chapter will be required to submit an end-of-year report outlining your chapter's activities over the academic year. This will be discussed in greater detail in the Welcome Document that will be sent to your point of contact.
